If I were young I would have lots of energy.
I would run around and wear big clothes
and music would follow me all around.
that would be great.

So I decided to leave the house + go to town

I love the Pixies but I take out my tape to hear the radio

Im out of touch with the now because all I listen to are my tapes.

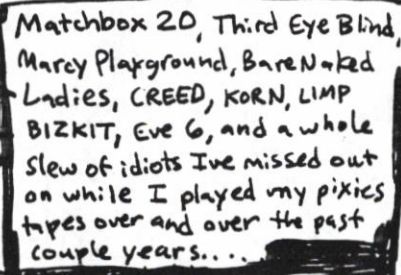

Just as I thought, the radio introduces people I missed.

Im Plattenladen...

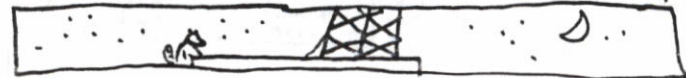

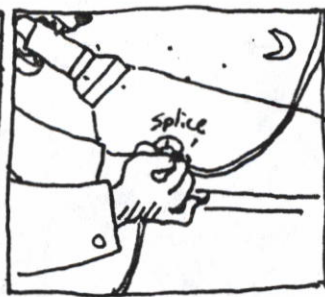

Die band ist populär. Bernhards Klassenkameraden hören seine Gruppe gern.

The radio sucks. but listening to old music on tapes makes me feel like I'm living in the past.

I dont hold a grudge against radio. As a medium, I think It has alot of potential. Its magical, really.

Iquess sometimes you just have to stop complaining and get involved, if you want things to change.

the end...
